

Rota cultural

A DESCOBERTA DE PATRIMÔNIOS
CULTURAIS NOS BAIRROS DE RECIFE

Objetivos

- Promoção do Turismo Cultural
- Facilitar informações de acesso ao museu
- Criar uma plataforma acessível para a compra de ingressos de exposições
- Criar uma funcionalidade para a compra de produtos artísticos de lojas locais
- Realizar uma interação com o usuário

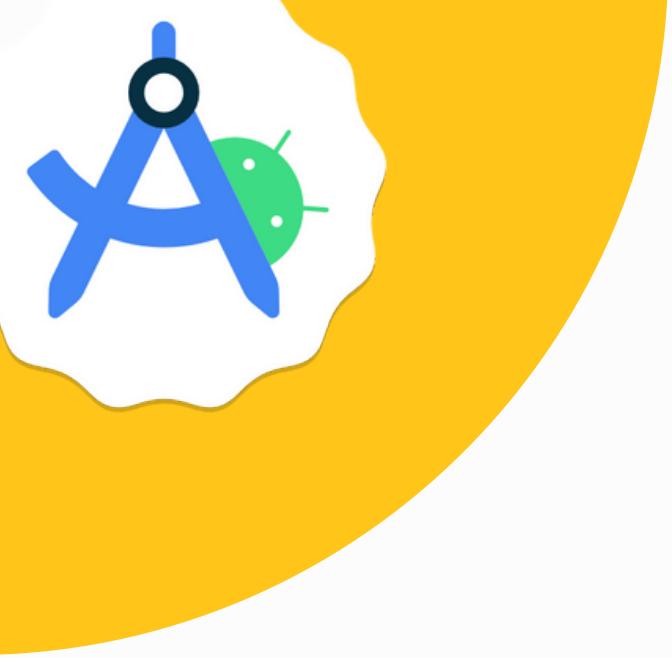

02

Recursos do APP

- Lista informativa sobre museus
- Sistema de avaliação de museus
- Espaço para Contato
- Loja de produtos
- Compra de ingressos
- CRUD

03

Desenvolvimento

- Planejamento
- Definição de telas de navegação
- Codelabs Android Developer
- Atribuições por integrante

A screenshot of the Android Studio interface. The top bar shows the menu: File, Edit, View, Navigate, Code, Refactor, Build, Run. Below the menu is the project name "projeto_mobile_rota_cultural" and a file "README.md". The main area shows the project structure under "Android":

- app
 - manifests
 - java
 - com.example.lunchtray
 - model
 - ui
 - ingressos
 - theme
 - TelaAvaliaMuseus.kt
 - TelaContato.kt
 - TelaInicial.kt
 - TelaLojaProdutos.kt
 - MainActivity
 - RotaCultural.kt
 - res
 - drawable
 - font
 - mipmap
 - values

04

Conceitos Utilizados

- Jetpack Compose
- Navegação entre telas
- Estado
- Interatividade e armazenamento de resultados
- CRUD
